

Name: _____

Date: ____/____/____

Time: _____ minutes _____ seconds

Number Right: _____ / 66

Example

answers

tables

4	56	14	22	72	99
2 x 2					
132	10	20	66	96	27
55	24	12	25	100	54
30	49	8	121	18	35
40	81	77	36	15	24
6	70	60	84	48	63
12	20	144	80	42	36
110	88	60	28	16	44
18	30	45	21	9	108
50	16	33	120	72	48
64	24	90	32	40	36

Find a table to match the answer

Answers which are shaded appear more than once because they have more than one table which match it e.g. 30 is shaded and appears twice because it has two tables which match it: $3 \times 10 = 30$ AND $5 \times 6 = 30$. For shaded answers you are required to find a **different table** and not the reverse of one you have already written. e.g. don't write $3 \times 10 = 30$ and $10 \times 3 = 30$ as they are the same.

Name: _____

Date: ____/____/____

Time: _____ minutes _____ seconds

Number Right: _____ / 66
